

CRETE BRITE CONCENTRATED ALUMINUM BRIGHTENER

PRODUCT SPECIFICATIONS

Biodegradable:	Yes
Solubility in Water:	100%
Boiling Point:	212°F
pH:	1.5
Flash Point:	None
Color:	Tan Liquid

Aluminum has always been a very difficult metal to clean and brighten. CRETE BRITE can do the job immediately! It cuts through oil, grease, diesel smoke, road film, aluminum oxide and actually rejuvenates the surface. Trailers, tanks and panels look new again without scouring, scrubbing or polishing. CRETE BRITE is also highly effective for cleaning and brightening aluminum molding, aluminum doors, etc. in motels, hotels, and office buildings.

CRETE BRITE contains no hydrofluoric acid or ammonium bifluoride.

"We're All About Solutions" - A Visible Difference !

RECOMMENDED USES

CRETE BRITE can be diluted with up to 10 parts water. It can be foamed, scrubbed or sprayed onto the surface. Depending upon soil conditions, CRETE BRITE can be scrubbed and rinsed from the surface with a hose or pressure washer.
