

## **RUST AWAY** **ONE-STEP CLEANER**

### **PRODUCT SPECIFICATIONS**

Color:	Red
Specific Gravity:	1.213
Detergency:	Good
Foaming:	High
Viscosity:	Medium
Odor:	Sweet
Pounds/Gallon:	9.9
Solubility in water:	100%
Biodegradability:	Yes
Flash Point:	None
P.H.	1:4

**RUST AWAY** is a highly concentrated, water based low pH cleaner designed as a one step solution in removing light concrete deposits and prevent re-rusting in one easy application. It is a blend of inorganic acids, wetting agents, detergents, and solvents specifically formulated for rapid removal of rust while providing long term protection against further rusting by forming a resistant phosphate coating while enhancing the quality of any painted surface.

**RUST AWAY** is also formulated to clean grease and oil from ferrous surfaces eliminating the need for a two-step operation. The remaining iron phosphate coating improves paint adhesion and protects against re-rusting. The bio-degradable formulation is environmentally safe and is also non-corrosive and non DOT regulated. **RUST AWAY** leaves a clean bright surface that aids in repelling concrete making it more cost effective when used on a daily basis. **RUST AWAY** is safe on rubber, glass, and mild steel.

## APPLICATION PROCEDURE

## DIRECTIONS FOR USE

- Dilute **RUST AWAY** with 1 to 5 parts water (depending on amount and age of rust and concrete deposits).
- Apply foam liberly to all parts of the truck including cab and wheals and undercarriage.
- Allow foam solution to penetrate for approximately 15 to 20 minutes.
- Do not let dry.
- Some brushing maybe required for road film and dry concrete.
- Rinse thoroughly with high pressure water.
- Severe conditions may require a second application.
