

## SC VOYAGER FOAMING SOLVENT-BASED EMULSIFYING DEGREASER

### PRODUCT SPECIFICATIONS

<b>Form:</b>	<b>Liquid</b>
<b>Flash Point:</b>	<b>&gt;350°F</b>
<b>Odor:</b>	<b>Aromatic solvent</b>
<b>pH:</b>	<b>0.5-1.5</b>
<b>Cold Stability:</b>	<b>32°F</b>
<b>Color:</b>	<b>Dark amber</b>
<b>Specific Gravity:</b>	<b>1.02</b>
<b>Emulsification:</b>	<b>Excellent</b>
<b>Detergency:</b>	<b>Good</b>

SC VOYAGER is a solvent-based foaming emulsifying degreaser designed specifically for use in plants and refineries where heavy crude deposits have left seemingly impenetrable deposits. SC VOYAGER is fast acting, quickly cutting into deposits such as tar, pitch, quench oil or any type of petroleum-based product, allowing them to be rinsed away.

### DIRECTIONS

Apply SC VOYAGER straight or through a pressurized system. Allow product to cut through deposits and rinse off after an appropriate time. The product will turn milky white upon contact with water.

### AREAS OF USE

SC VOYAGER is recommended for use in any industrial area where petroleum-based products are a problem, especially in those areas where tar, pitch, quench oil, etc., have hardened, leaving behind a sticky, hard to clean residue.
